PPAP 18 ELEMENTS — COMPLETE FLOW MAP
AIAG PPAP 4th Edition | IATF 16949 Clause 8.3.4.4 | Quality Head Agents © 2024

<pre>Paragraph(caseSensitive: 1 encoding: 'utf8' text: 'Element Name' frags: [Paragraph(__tag__='b', bold=1, fontName='Helvetica-Bold', fontSize=9, greek=0, italic=0, link=[], rise=0, text='Element Name', textColor=Color(1,1,1), us_lines=[])] style: 'bulletText': None debug: 0) #Paragraph</pre>	<pre>Paragraph(caseSensitive: 1 encoding: 'utf8' text: 'L1/L2/L3/L4-5' frags: [Paragraph(__tag__='b', bold=1, fontName='Helvetica-Bold', fontSize=8, greek=0, italic=0, link=[], rise=0, text='L1/L2/L3/L4-5', textColor=Color(1,1,1), us_lines=[])] style: 'bulletText': None debug: 0) #Paragraph</pre>	<pre>Paragraph(caseSensitive: 1 encoding: 'utf8' text: 'What It Covers' frags: [Paragraph(__tag__='b', bold=1, fontName='Helvetica-Bold', fontSize=9, greek=0, italic=0, link=[], rise=0, text='What It Covers', textColor=Color(1,1,1), us_lines=[])] style: 'bulletText': None debug: 0) #Paragraph</pre>
--	--	--

1	Design Records	R/S/S/S	Documents that describe design intent — drawings, CAD, specs, tolerances
2	Engineering Change Documents	NR/R/R/R	All ECNs, deviation permits, engineering changes with customer sign-off
3	Customer Engineering Approval	S/R/R/R	Written customer approval for design or process deviations
4	DFMEA	R/R/R/R	Design Failure Mode and Effects Analysis — all failure modes addressed
5	Process Flow Diagram	R/R/R/R	Complete process flow from raw material to dispatch including rework
6	Process FMEA	R/R/R/R	PFMEA aligned to PFD and CP — all process failure modes covered
7	Control Plan	R/R/R/R	Pre-launch and production control plans — all CC/SC characteristics
8	MSA Study Results	R/R/R/R	GRR, Bias, Linearity, Stability — all CC gauges, GRR <30%
9	Dimensional Results	S/R/R/R	6-piece dimensional study — all balloon dimensions vs drawing
10	Material / Perf Test Results	S/R/R/R	Test reports from approved labs — all drawing specifications
11	Initial Process Capability	S/R/R/R	Cpk ≥1.67 (CC) / ≥1.33 (others) — from 300-piece production trial
12	Qualified Lab Documentation	R/R/R/R	Lab accreditation certificates — ISO 17025 or OEM-approved
13	AAR — Appearance Approval	R/R/R/R	Appearance sign-off for color, gloss, texture, grain — if applicable
14	Sample Product	NR/S/S/S	Physical samples from production trial — quantity per customer spec
15	Master Sample	NR/NR/R/R	Reference sample retained at supplier — used to set pass/fail standard
16	Checking Aids	NR/NR/R/R	Gauges, fixtures, templates — calibrated and documented
17	Customer-Specific Requirements	R/R/R/R	All CSR requirements addressed — TML, Maruti, Honda, AL, Mahindra
18	Part Submission Warrant (PSW)	S/S/S/S	KEY DELIVERABLE — signed PSW = authorization to ship production parts
